DETAILED ACTION

Priority

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

The information disclosure statements (IDS) submitted on 3/10/04, 1/3/05 and 4/11/05 have been considered by the examiner.

Additional Prior Art Cited

Schilling et al discloses diffractive safety element having a relief structure in a plastic layer composite.

Informal Examiner's Amendment

An informal examiner's amendment to the record appears below to correct an obvious typographical error. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In claim 1, line 14, --,-- has been inserted between "composite" and "the". See attached corrected claim 1.

Allowable Subject Matter

Claims 1-21 are allowed.

The following is an examiner's statement of reasons for allowance: none of the cited prior art, alone or in combination, teaches or suggests a retroreflector having a

relief structure including the structure and function specified in claim 1, lines 6-15, in combination with the remaining features of the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
